1 = CLP Harmonized classification according to REGULATION (EC) 1272/2008 amended by COMMISSION REGULATION (EC) No 2020/217

2 = Self-classification

3 = By inhalation route of exposure only

4 = Powder is <1 mm and massive is ≥1 mm equivalent spherical diameter

5 = Self-classification specifically due to phosphoric acid component

NC = Not classified

STOT = Specific target organ toxicity

Ni BP = Ni bis(dihydrogen phosphate)

Orange = CLP harmonized classification or self-classification
